Fairview is the halfway mark between Cleveland, Ohio, and Buffalo, N. Y., and 60 miles east of the Nursery Center of Painesville, Ohio. It is also the closest point of contact between Pittsburgh, Pa., and Lake Erie.

We are not in the Japanese Beetle Quarantine Zone.

WE EXTEND YOU A HEARTY INVITATION TO COME AND SEE OUR STOCK
Sunday Business Not Transacted.

Evergreen Seedlings

Due to good growing conditions and special soil preparation of seed beds, we have a heavy grade of seedlings to offer. War conditions have shortened or stopped the seed crops. Labor available for transplanting is short. We are **reducing our prices** somewhat on seedlings to avoid the work necessary to carry them along. We would urge that you plant seedlings and have your own transplants when you need them. They are not being planted as usual and after the war will be an extremely short item.

Juniper Glauca Hetzi

A spreading-type evergreen, decidedly blue, rapid in growth, and stands shearing well, making fine heavy stock.

While it is not a Chinensis, it closely resembles Pfitzeriana, but has the advantages of the blue-colored foliage and is somewhat more rapid and denser in growth. It makes up more readily as a staked spreader, is much more easily propagated by cuttings and is a more rapid grower when small.

In 31 years of full line production and heavy propagation this is the only new evergreen we have really propagated in quantity. We feel that it will be worthy of our customer's confidence, and will make a profitable item.
